

At your initial visit to our clinic, you will be asked to complete some brief paperwork prior to meeting the Chiropractor who will then go through a complete consultation and examination with you. This process will include a detailed review of your history followed by various Chiropractic, Orthopaedic and Neurologic tests.

A Chiropractic Check-up is Beneficial to Everyone in all Walks of Life

The Chiropractor will also advise you if any type of diagnostic imaging, laboratory or other diagnostic tests are necessary to complete your examination. Your exam results will be studied and then reported to you; an appropriate treatment plan to achieve your health objectives will be discussed and recommended to you.
